Permit

Subject: **NPDES Construction General Permit Tracking No. TNR111868**
State of Tennessee - Department of Corrections
Pikeville, Bledsoe County, Tennessee

Dear Mr. Steck:

The Division of Water Pollution Control issued coverage under the General NPDES Permit for Storm Water Discharges Associated with Construction Activity (CGP) to State of Tennessee - Department of Corrections on February 2, 2010. That coverage was issued in response to the initial NOI submitted on December 23, 2009.

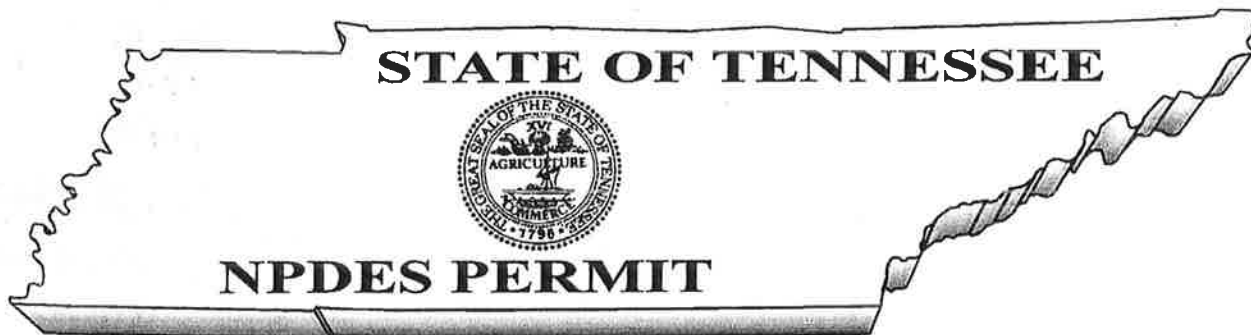

The amended NOI was submitted to include a new contractor as a co-permittee under the CGP. Enclosed is the updated Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc. Although we recorded information regarding the new contractor, we do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

We appreciate your attention to the general construction storm water permit and its requirements. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Jennifer Innes at (423) 634-5719.

Sincerely:

Richard D. Urban, Ph.D.
